

# Grayson College Course Catalog

## Overview - Associate Degree Nursing

The Nursing program provides an integrated nursing curriculum that assists students in acquiring the knowledge, skills, and experience necessary to function as beginning practitioners of nursing. The curriculum includes classroom, skills lab, simulation lab, and clinical courses. Students must satisfactorily complete all the nursing courses in each semester concurrently in order to progress to the next semester of the program, and all semesters must be taken in sequence. Acceptance into the program is required to take the RNSG courses.

---

Upon completion of the program of study, the student will have earned an **Associate of Applied Science Degree in Nursing**. Graduates of the program may then apply to the Board of Nursing to take the licensure exam to become a registered nurse. The program is approved by the Texas Board of Nursing (BON)\* and accredited by the Accreditation Commission for Education in Nursing (ACEN).\*\*To qualify to take the licensing exam, students must meet eligibility requirements stipulated by the Board of Nursing. Applicants who have reason to believe they may be ineligible to take the licensing exam due to criminal background issues may petition the BON for a declaratory order.

This should be done prior to entering the nursing program since these eligibility issues also prevent the student from enrolling in the clinical courses. Information about eligibility is available in the RN Information Packet and on the website for the Texas Board of Nursing.

---

Detailed information about the program is provided in an information packet, available by sending an email request to [nursing@grayson.edu](mailto:nursing@grayson.edu). The applicant should request the RN Information Packet. This packet will be sent to the applicant via email. Completion of this information packet is required for all applicants to the program.

The following general information about the nursing program is current at the time of printing, but all information is subject to change without notice or obligation.

Information sessions are held monthly for interested candidates to attend. The schedule is posted on the Grayson website calendar.

---

### Transfer of College Coursework

Students who desire admission via transfer to GC must adhere to the GC course transfer policies outlined in the *GC Student Handbook*. This includes submitting official copies of transcripts from each college or university previously attended to the Office of Admissions and Records and a copy of the transcripts to the ADN program. The Office of Admissions and Records will not send a copy to the ADN office. Prerequisite and corequisite general education courses will be accepted for transfer and application toward the Associate of Applied Science Degree in Nursing if the course is evaluated as equivalent to the required course at GC. Nursing courses are accepted for transfer only with prior approval of the ADN Admissions Committee. Students wishing to transfer nursing courses should request an Information Packet at [nursing@grayson.edu](mailto:nursing@grayson.edu). Copies of course syllabi from all previous nursing courses must be submitted to the ADN Program Coordinator to determine eligibility for transfer. Applicants must also provide a letter from the previous nursing program director stating that the applicant is currently passing and in good standing.

---

## Overview - LVN to AAS in Nursing (TE Option)

The Nursing program facilitates upward educational mobility for the licensed vocational/practical nurse by offering advanced placement into the nursing program through two transitional entry courses (RNSG 1413 and RNSG 1227).

These courses are offered as hybrid courses, combining online and classroom learning and must be taken and passed concurrently to progress to the Nursing 3 semester. Students may only take the TE courses one time. If unsuccessful in one or both of the TE courses, eligible students may apply for admission to Nursing 1 or 2 in the traditional ADN program. Acceptance into the program is required to take the RNSG courses.

Upon successful completion of the two TE courses, students receive 11-semester credits for prior vocational nursing courses. TE students then continue in the nursing program following the traditional ADN course schedule for the third and fourth semesters. Grading and progression policies are the same for all students in the nursing program regardless of entry as a traditional or TE student.

Detailed information about the program is provided in a TE information packet, available by sending an email request to [nursing@grayson.edu](mailto:nursing@grayson.edu). The applicant should request the Transitional Entry Nursing Information Packet. This packet will be sent to the applicant via email. Completion of this information packet is required for all applicants to the program.

The following general information about the TE program is current at the time of printing, but all information is subject to change without notice or obligation.

Information sessions are held monthly for interested candidates to attend. The schedule is posted on the Grayson website calendar.
